

CL-19-4410-D

Hidalgo County Justice Dept. and

State Bar of Texas, Office of the General Counsel

, P.O. Box 12487, Austin, Texas 78711-2487.

I can not believe it has come to this point. I am in shock and awe, that a man with a degree, and who passed the state exam to practice law is here today, saying these things. He is obviously worried about losing his right to practice. Defamation of character over a google review, which has no false information. Loss for words, but I will try to defend myself.

Lets start from the beginning. My jaguar was faulty, and caught flames. My wife and daughter were inside the vehicle, we are both 6+ year 911 medics. I reached out to my friends, and was referred to a "great lawyer" Chris Sanchez. Randy Garza, a lifetime friend, was the referral. (he now had to block Mr. Sanchez, because Mr.Sanchez was harassing him after all of this. see randy1) I was in desperate need of help and did not have the funds, so I quickly took my friends word, and set up a meeting with Mr. Sanchez. With all the information provided to him, he gladly took the case, and we came to an agreement. There was no issues at all, except one, he stated he had a fire origin expert here in the valley. Later on, finds out, he lied to us and we had to hire our own out of Florida. I still needed help, and did not care.

Chris would message me all the time. He would ask me questions, he would send me checks of clients (see usb drive) , he would send me pictures of conversations with other clients (see usb***), he even said, "do you know why i chose your case, and "not hers." after showing me the screen shots he took. (see usb drive***) along with call logs, and dates (usb drive**). I tried to respond to help him. I even asked him advice about my relationship with my wife, he said, stay with her, if not i cant represent you two, and have to withdraw. I took his advice, and am very thankful, we are currently together in a new apartment. Keep in mind, during this whole time, he never contacted my wife, which is his client, not even to let her know he withdrew from the case. The whole time representing her, he never contacted her. She wanted to switch lawyers because during the meeting, Chris could not focus, and would repeat himself over and over. He asked me multiple times for medical records, which i told him from the first place, there are none. Just the ONE doctor he sent us to. He had forgotten that. Multiple times. *check usb for the screenshot of me telling him dates 3 times*

I began to become suspicious of substance abuse when forgot we had set up the meeting for Jaguar, and the inspector, Gene Bullington, from Florida (please see usb for pics and txt!) . I also became suspicious of substance abuse, when he sent me messages at 1am (see usb for proof) , then said "sorry for messaging you". (check usb file clientinfo21amtext). On his personal facebook, there were videos of him drinking heavily. I could not save those. I talked about this issue with Randy Garza months before Mr.Sanchez decided to go crazy on me. Now, after reading his statements from the papers I was served with, I am REALLY concerned for this man. I have evidence to prove harassment, phone calls, messages, pictures, where I was at (google gps), and lastly, falsifying records, and flat out lying, which he knows, is

a felony. I spoke to Randy Garza about Chris and his habits, and Mr. Garza agreed, and was concerned as well (usb drive, convo with randy)

The last time aug12th) I spoke to him, he said he was calling the police for harassment, so I had to do the same for my safety. I made a call after work, (as you can see with picture attached, I was very busy that day), to Edinburg PD, and Officer Manuel Garza came out to take a report. I showed him everything on my phone. He stated, "this man clearly needs help." He laughed, and did not even take a police report, he was shocked himself. (please check Edinburg PD for EVIDENCE OF ME CALLING POLICE.) Now here I am, with no degree in law, defending myself with simple evidence. I spoke to the officer that went out to Mr.Sanchez. He laughed as well and gave me great advice. Mr. Sanchez has made some serious allegations, and as an attorney, he took an oath, and knows the consequences in falsifying reports. In the letter, Mr. Sanchez stated i threatened to shoot him. If that is true, speak to the officer that responded aug 12th to Chris' office. . He took a report and spoke to me on the phone after. I have no history of violence whatsoever, and am embarrassed Mr.Sanchez is doing this. The officer never heard of this statement.

Secondly, making up stories. For example, he said he has surveillance video of me showing up a 3 times, after I went to pick up my file. He also told Randy Garza that i went by twice again on Wednesday... why wasn't this reported if its true? I was at work, with patients. I went to his office after calling to make sure he was not there. (which I had permission from him to do so) The file contained the title for my jaguar, the tow truck receipt, and multiple personal items. It was necessary for me to go, and I was the only one able to pick it up. HE stated a red 4 door sedan came a 2nd time, and called the police. (please look into this). I drive a Red Cadillac ATS, with one of a kind lights, so I would love to see the footage, because I know for a fact, it was not me. (this means Mr. Sanchez is falsifying a report, which I believe is a felony.) He also stated to Randy Garza that I again went the next day twice in facebook messenger (check usb) this is another false report. I have full evidence, and even got written up because Chris called me multiple times while I was in a meeting with a patient and her family. (reason Pablo Trejo had to answer Chris' call. I even had to reject Mr. Sanchez's called during the meeting because he called so frequent, after me messaging I AM IN A MEETING. *check usb file log1.* Also, in this lawsuit, Chris Sanchez states Pablo Trejo is a "buddy" of mine. Pablo Trejo is the Director of Operations at Life Star EMS. He is a 14 year Critical Care Medic and has served Hidalgo County for 10 plus years. Mr. Trejo was with me during the time Chris kept calling me over and over. When Mr. Trejo tried to explain to Mr.Sanchez, that i was busy, Mr. Sanchez hung up the phone shouting. Pablo Trejo is my boss, Director of Operations, at Life Star EMS.

After speaking with Randy Garza, the friend that referred me, it became clear I needed to get my personal file from his office. The file contains my jaguar title, tow truck receipt, letter, and personal information. In order to do this respectfully, especially after the harassment of Mr.Sanchez the day prior (check usb call logs), I had called and asked to speak with the Secretary, Ms.Lori to make arrangements. She had picked up the phone, and I asked her how her day was going, and if I could please pick up my file. I had also advised her, "I can not go if Mr.Sanchez is there, because im sure you heard whats going on." She stated, "no i don't mijo I am sorry, one second. She placed me on hold. This is where we need to pay attention. After telling me not to speak to him, Mr. Sanchez picked up the phone, yelling,

screaming, "yes I can come get my shit", and to "leave him alone." I hung up the phone. (check evidence) I walked into the office signed the proper documents needed and got my file. During this time, I was having a conversation about our days with Ms. Lori, I asked her 3 times, if Chris knew it was me that called, and if he picked up the phone, She stated "yes." I said, "mam he shouldn't be talking to me, he said I was harassing him, and is going to have me arrested." she stated, "I had no idea." I said, its okay, since we are on the subject, this is what happened. Explained to her my side, (she never told me to stop talking, and even seemed to feel sorry for me) Check his cameras that he states he has. There was no shouting, nothing. I did say, I am reporting him to the state, because what he is doing is illegal. He needs to be investigated.

I left his office with my file and continued back to work. A few days later, I was served with his outrageous claims, and this needs to be handled accordingly. August 13 is the last day I had spoken/seen Mr.Sanchez, my last reply was via email, even stating, "I do not want to go to your office, it is not air conditioned". It did not end here, as he continued to try to harass me, through other friends, messenger, clients, and may have hired thugs, to follow me. (I had to move 3 days after this.) I can provide proof as well. If anything, Mr.Sanchez should be responsible for the loss of my Jaguar (since he sabotaged my case) and defamation of character, (contacting friends, employees, and clients) on a personal level. These damages can cost up to 50,000. Mr. Sanches as a finance major, should agree. I am curious as to where the \$250,000 number came from for his lawsuit. I would love to Motion to see Mr. Sanchez video surveillance, and any other evidence he has, as I gave up all of mine freely. Mr. Sanchez needs to be held accountable for the crimes and pay for the resources that were used during these false claims. This same letter and messages has been sent to State Bar of Texas, Office of the General Counsel, P.O. Box 12487, Austin, Texas 78711-2487., to review Mr.Sanchez as an attorney. I am so sorry to have to have do this, causing time wasted from you, myself, and hidalgo county. Mr. Sanchez should be held accountable for all the crimes he has committed as a Lawyer. Thank you. My number is 956-778-5808. I would like for the investigator or anyone to call me with any questions or concerns, or if they need information on where I was, or pictures of my car. Once again, Thank you for your time. Once again, this packet has also been sent to State Bar of Texas, Office of the General Counsel, P.O. Box 12487, Austin, Texas 78711-2487.

Please
see USB!!!

-Trevor Kocaoglan

P.O. Box 273
Combes, TX, 78535

I, Pablo Trejo, am concerned and interested for my employee. I have no idea how Mr. Sanchez can successfully do his job, with his conditions. I answered the phone because Trevor Kocaoglan was in a meeting, before being able to speak, Chris started shouting and cussing. I hung up the phone. Now, he is trying to sue me for 250,000. As a paramedic, after reading all of Trevor's evidence, it is clear Mr. Sanchez has a substance abuse problem. Thank you.

x Pablo Trejo

P.O. Box 273
Combes, TX, 78535

I, Abdaly Zuniga, have reviewed my husbands letter, and can agree with him 100%. Chris Sanchez is a fraud, and can not be trusted with any client information. Chris Sanchez wasted my time, and is clearly under the influence of some kind of substance.

x Abdaly Zuniga
